

TriGeo SIM Version 5 Named 'Top Midmarket Security Product' by *CRN Magazine*

Two Midmarket Nods in Two Weeks Highlight TriGeo as the Industry Thought Leader for Safeguarding Midmarket Networks

POST FALLS, Idaho (April 19, 2010) — TriGeo Network Security, the leading provider of [security information and event management \(SIEM\)](#) technology for [midmarket enterprises](#), was just named the 'Top Midmarket Security Product' by *CRN Magazine*. The recognition comes just weeks after TriGeo's selection as the '[Best Midmarket Solution](#)' at the *IT Business Edge* Midmarket CIO Forum – helping solidify TriGeo's position as the leading innovator and thought leader in midmarket network security.

"TriGeo is repeatedly recognized as the top SIEM solution that sets the standard for securing midmarket networks," said Michelle Dickman, president and CEO of TriGeo Network Security. "We take every measure to deliver best-in-class customer support that ensures our users get the most value from the technology as quickly as possible. We're honored to be selected as the 'Top Midmarket Security Product' by *CRN Magazine*."

'Top Midmarket Product' winners were selected by *CRN* editorial staff, solution providers and CIOs of midsize organizations based on customer service, how well the vendor's technology fits a midsize enterprise, and the vendor's commitment to solution providers serving midmarket customers.

"TriGeo's Version 5 of its Security Information Management system literally started from the ground up with a brand-new database, a revamped interface and accelerated reporting capabilities that distilled reporting time from 11 minutes to about 1 minute," said *CRN Magazine* in its article on 'Top Midmarket Product' winners. "The TriGeo SIM may be smaller than its competitors but it was specifically created for the midmarket, giving it an advantage over its rivals -- which often scale down an existing enterprise-class product to target lower markets."

TriGeo recently launched the fifth generation of its flagship [SIM solution](#). Delivered as a fully configured appliance, TriGeo SIM Version 5.0 supports hundreds of network devices, and comes stocked with more than 700 security and network monitoring rules and more than 300 pre-built reports for compliance and network analysis. The solution goes far beyond simple [log management](#), providing real-

time log analysis to identify network attacks and policy violations as they happen and initiate proactive responses such as quarantining, blocking, and USB device defense. All of this is available at a price starting below \$20,000 for North American-based deployments. The company has hundreds of customers across financial services, retail, healthcare, education, government, utility and media/entertainment.

About TriGeo Network Security

TriGeo Network Security delivers enterprise security information and event management (SIEM) designed specifically for the needs of the midmarket. TriGeo SIM is the only real-time SIEM appliance that automatically identifies and responds to network attacks, suspicious behavior and policy violations. This award-winning product combines real-time log management, event correlation, USB detection and prevention with powerful active response technology. TriGeo SIM is both a unique network defense technology and an "Audit-Proven" compliance solution that meets the security monitoring and log management requirements imposed by PCI, GLBA, NCUA, NERC CIP, FDIC, HIPAA, SOX and more.

TriGeo has hundreds of customers across key vertical markets including financial services, healthcare, government, utility, retail and media/entertainment. TriGeo SIM has won numerous awards including three *SC Magazine Awards*, the 2007 Frost & Sullivan North American Technology Innovation of the Year Award, the *Bank Technology News* #1 ranking in the 2008 FutureNow List, and the *SC Magazine Best Buy* of 2006 award for Event Management. The Company is a member of the PCI Security Standards Council and PCI Security Vendor Alliance and is represented by partners worldwide.
