

TriGeo Wins Three Midmarket Technology Awards in 30 Days

Participants at Midsize Enterprise Summit and SC Magazine Validate Innovation and Dedication to Midmarket Security

POST FALLS, Idaho (May 15, 2009) — [TriGeo Network Security](#), the leading provider of [security information and event management](#) (SIEM) technology for midmarket enterprises, continues to win accolades for its dedication and exclusive focus on helping midmarket businesses proactively secure networks from internal and external threats in real time. In the past 30 days, TriGeo was named the '[Best Small to Medium Sized Enterprise \(SME\) Security Solution](#)' by *SC Magazine* and recognized by the participants at the [Midsize Enterprise Summit East™](#) as the 'Best of Show' and 'Best Midmarket Solution Hardware.'

The wins mark the third consecutive year that TriGeo has been recognized at the [SC Awards](#) and the fifth consecutive time that the company has taken home multiple honors at the Midsize Enterprise Summit.

"One size does not fit all in network security. Midmarket companies have limited resources and unique needs that can't be met by repackaged, stripped-down enterprise technology," said Michelle Dickman, president and CEO of TriGeo Network Security. "These midmarket recognitions speak a loud, consistent and unified message: TriGeo understands what the midmarket needs and delivers technology that compliments and extends the resources of smaller IT departments."

Designed exclusively for midmarket networks of 50 to 5,000 employees, TriGeo SIM comes stocked with more than 650 security and network monitoring rules and nearly 300 pre-built reports for compliance and network analysis. The solution supports hundreds of network devices, dozens of applications, and goes far beyond simple log management, providing real-time log analysis to identify network attacks and policy violations as they happen and initiate proactive responses such as quarantining, blocking, USB defense and controlling processes, accounts and privileges. All of this is available at a price starting below \$20,000. The company has hundreds of customers across financial services, retail, healthcare, education, government, utility and media/entertainment.

###

About TriGeo Network Security

TriGeo Network Security delivers enterprise security information and event management (SIEM) designed specifically for the needs of the midmarket. TriGeo SIM is the only real-time SIEM appliance that automatically identifies and responds to network attacks, suspicious behavior and policy violations. This award-winning product combines real-time log management, event correlation, USB detection and prevention with powerful active response technology. TriGeo SIM is both a unique network defense technology and an "Audit-Proven" compliance solution that meets the security monitoring and log management requirements imposed by PCI, GLBA, NCUA, NERC CIP, FDIC, HIPAA, SOX and more.

TriGeo has hundreds of customers across key vertical markets including financial services, healthcare, government, utility, retail and media/entertainment. TriGeo SIM has won numerous awards including three *SC Magazine* Awards, the 2007 Frost & Sullivan North American Technology Innovation of the Year Award, the *Bank Technology News* #1 ranking in the 2008 FutureNow List, and the *SC Magazine Best Buy* of 2006 award for Event Management. The Company is a member of the PCI Security Standards Council and PCI Security Vendor Alliance and is represented by partners worldwide.
